Product highlights

14.4V rechargeable appliance with cyclonic airflow

The Philips Mini Vac's cyclonic airflow keeps the dirt inside rotating to ensure optimal, high suction power and cleaning performance that lasts.

Exceptionally quiet

The Philips Mini Vac, with its powerful motor, is exceptionally quiet thanks to its special streamlined design. The comfortable noise level allows you to tidy up your home any time you want to.

Detachable dishwasher-proof nozzle

The Philips Mini Vac is also easy to maintain. If the nozzle needs cleaning, you simply put it in the dishwasher. That way you've always got a spotless, dirt-free Mini Vac at hand.

Telescopic tube, floor nozzle, brush, crevice tool

The Philips FC6094 (14.4V) comes with a number of accessories to tackle any job with ease. Its comfort kit includes a floor nozzle and a telescopic stick to comfortably clean spills and messes even across larger areas. Its soft brush attachment is gentle on delicate surfaces and its crevice tool lets you clean even those awkward, hard-to-reach places.

Smart-design charging base for wall or table

You can store the Philips Mini Vac on a convenient charging base, against a wall or on a table. This means the Philips Mini Vac, with its powerful rechargeable battery, is always ready when you are.

Cyclonic airflow and 2-stage filtration system

The Philips Mini Vac's cyclonic airflow keeps the dirt inside rotating to ensure optimal, high suction power and lasting cleaning performance. And its 2-stage filtration system ensures that, once inside, the dirt cannot escape. The first filter blocks most dirt, while the pleated, second filter traps the finer dust particles.
